4 FAH-3 H-152 EFFECT ON ALLOTMENTS

4 FAH-3 H-152.1 Appropriation Refunds

(TL:FMP-1; 09-30-1994)

The responsible officer must credit any funds representing refunds directly to the related obligation from which the original payment was made. In the event where it is not feasible or practical, a refund may be credited directly to the allotment or operating allowance. Refunds received within the period of availability of the appropriation have the direct effect of reducing obligations and increasing the unobligated balance of the operating allowance.

4 FAH-3 H-152.2 Appropriation Reimbursements

(TL:FMP-1; 09-30-1994)

Unlike refunds, amounts received representing reimbursements (see 4 FAH-3 H-126) are not credited to the suballotment accounts from which the original payment was made. Reimbursement account symbols are established on the Washington office records (see 4 FAH-3 H-153), and the amounts so collected must be reallocated before they become available for use, except for working capital fund reimbursements. In some cases, reimbursements must be turned over to Treasury.
